

What kind of care is right for me?

HEALTH ANYWHERE

From bug bites to sniffles and sneezes, use the Health Anywhere app 24/7 to schedule a virtual urgent care visit for common health issues and illnesses.

\$\$\$\$\$

PRIMARY CARE

Your first line of defense for good health, primary care is for the treatment of non-urgent issues, management of chronic medical conditions and routine wellness checkups.

\$\$\$\$\$

URGENT CARE

When primary care isn't available or you need quick treatment after hours for any non-life-threatening issues such as rashes, stitches, sprains and pains.

\$\$\$\$\$

EMERGENCY ROOM

When it's life threatening, our Emergency Rooms are open 24/7/365 to provide critical care for chest pains, broken bones, severe burns, uncontrolled bleeding and other serious injuries or illnesses.
